

Associated partner for outgoing phase	
CORPORATION DE L'ÉCOLE POLYTECHNIQUE DE MONTRÉAL ASSOCIATION + EPM + Canada	
General description: Founded in 1873, Polytechnique Montréal (PM) is one of Canada's largest engineering teaching and research institutions and has educated over 52 500 engineers. It ranks first in Québec in terms of the scope of its research activities. Its annual research budget stands at \$110 million and its 60 research units allow its teams of professors. The institution accounts for the production of nearly one-quarter of university engineering research in Québec.	
Role and profile of supervisor	Julie Carreau (OS) is Assistant Professor in the MAGI department (2021-) and is also affiliated with IVADO, Institute for Data VALorization. She has a mixed background in mathematics and machine learning. She has spent 14 years in France, initially as a postdoctoral fellow and then with a tenure position at <i>Institut de Recherche pour le Développement</i> (IRD). As a postdoctoral fellow, she worked with the RS on a topic linked to the SUMEXT proposal. The OS will provide both research training and personal tuition on various topics associated with the SUMEXT project. She will also give the FP the opportunity to increase its network through its numerous collaborations in Montreal.
Key research facilities, Infrastructure and Equipment	PM will provide means of calculation thanks to CalculQuébec but also courses in order to handle different protocols/languages (MPI, OpenMP, CUDA, OpenACC). Assistance on arrival, finding accommodation and integration of the family and spouse. The PF will have a desk, a whiteboard, an internet connection and access to scientific papers from all major publishers.
Previous and current involvement in EU funded research and training programmes, actions, projects	• 31st Annual Conference of the EAIE, Helsinki, Finland, 09/2019 (European Association for International Education). • PM is Member of the CLUSTER network: a pan-European group of University of Science and Technology universities. • PM is Member of the T.I.M.E Association: Top International Managers in Engineering, with mainly European universities. • Julie Carreau was personally involved in European funded research projects directly associated with the SUMEXT project (see <i>Part A, Section 2 - Participants</i>).
